CORPORATE OVERVIEW

Integrated Systems & Devices Limited (ISDL) is a systems integrator and provider of electronic security and extra low voltage solutions for medium to large companies, organizations, multinationals and government agencies. Incorporated in 1988 as a limited liability company in the Federal Republic of Nigeria, with head office in Lagos, ISDL has over 30 years history in the delivery of professional electronic security services which includes design, procurement, supply, installation, integration, maintenance and after sales support of various electronic security and related equipment. With branch offices in Abuja and Port-Harcourt, ISDL operates in all the 36 states of Nigeria and in the West African Sub-region.

VISION STATEMENT

“To make the world a more secure place by providing innovative technology based solutions.”

OUR CORE VALUES AND BELIEFS

- ▶ We believe in deploying solutions that meets technical standards and the needs of our clients.
- ▶ We believe in ensuring that our installations stand the test of time and have impressive aesthetics.
- ▶ We believe that all our clients are valuable and should be treated as such.
- ▶ We believe in making our clients happy by meeting their needs promptly.
- ▶ We believe in the welfare and happiness of our people.
- ▶ We believe in accepting responsibility for our actions and in being alive to our responsibilities, to the company, the client, the community and to God.
- ▶ We believe we should be honest in all our dealings.
- ▶ We believe in paying attention to details.
- ▶ We believe in providing prompt & efficient after sales support.
- ▶ We believe in complying with safety, health & environmental standards.
- ▶ We believe in facing challenges using a systematic & integrated approach.
- ▶ We never believe anything is impossible.

POLICY STATEMENT

Integrated Systems and Devices Limited, ISDL, is committed to making the world a safer place through the provision of quality and sustainable innovative technology-based security solutions to its clients and relevant stakeholders. In staying true to this commitment, we have built our quality management system (QMS) around the ISO 9001:2015 QMS framework. Accordingly, we are committed to customer satisfaction and compliance with applicable statutory and regulatory requirements.

ISDL strives to be the preferred provider of integrated electronic security solutions in the industry and across West Africa, rendering a wide range of services including design, procurement, supply, installation, integration, maintenance and after sales support strategically aligned and executed in a manner that consistently guarantees customer satisfaction. This is done through efficient business processes, effective risk management, best practices and continual improvement.

Our goal is 100% customer satisfaction 100% of the time!

This policy shall be communicated to relevant stakeholders and shall serve as the framework for establishing objectives at all levels. It shall be fully implemented, kept up-to-date and be the basis for our actions.

ISDL is an ISO 9001:2015 Certified Company

OUR PARTNERS

BOSCH

Bosch Security Systems is an innovative, global, one-stop-shop for high-quality security and communication products.

Bosch Security Systems provides systems and components for a vast array of applications:

Residential – homes

Retail – shopping centres, premises

Commercial - banking

Industrial – factories, warehouses

Governmental– hospitals, prisons, schools, universities

Public venues – museums, libraries

Transportation – airports, train stations

“Bosch brings professional surveillance into the realm of small businesses with our new affordable range of ‘Advantage Line’ analog and IP CCTV with features ideal for smaller installations,” said Eric Ho, Regional Product Marketing Manager, Robert Bosch (SEA) Pte L

CDVI proximity card readers are recognized worldwide, having won several awards for their innovative design. CDVI has a full and varied range of proximity card readers to meet all of your needs. This includes mini, mullion, vandal-resistant and card reader/keypad combinations.

Digital Day/Night cameras, offered in 1/3 in. model LTC 0495 and 1/2 inch model LTC 0620, include mechanically switching IR filter to work under poor lighting conditions. IR filter switches from color to monochrome by sensing illumination level or via alarm input. Bi-directional communication capability embedded in video signal enables technicians to check status, change camera settings, and update firmware from anywhere along video cable.

OUR PARTNERS

Carrier Climate, Controls & Security offers a broad portfolio of world-class fire safety and security brands that provide solutions for fire detection and suppression, intrusion detection, access control and video surveillance, with installation, inspection, monitoring and response solutions for customers worldwide in a variety of application and settings.

Carrier (TruVision)-HD-TVI Cameras

Intrusion Detection

We install, service and monitor only proven and effective intruder alarm systems that offer protection for people and property in a wide variety of applications. We provide solutions that cover residential and small businesses right through to large corporations and government

Carrier (TruVision)-HD-TVI Cameras

OUR PARTNERS

The CDVI Group is a global manufacturer of leading-edge security solutions, offering a wide range of innovative products from online and standalone access control to locking, door automation, and next-generation biometric entry systems.

CDVI makes high-quality, high-performance products to enhance security and improve mobility in any commercial or residential building.

CDVI MV Series Motorised Deadbolt Electric Rim Lock- MVM - With Manual Override

Ideal for use on heavy duty gates, doors and cages, this electric rim lock from CDVI is available either with or without manual override. This version is with manual override. It meets IP53 standards with nylon gears and varnished electronics

Electro-magnetic Locks

- Lock cannot be physically picked
- Automatic locking – less risk of human error
- Only authorised people can enter
- Better visibility and monitoring
- Time and attendance tracking
- Visual deterrent to criminals

DIGIWAY Door Automation

DIGIWAY provides a universal door automation solution for both interior and exterior doors, adaptable for both single and double doors. With a built-in receiver and free programming app, all parameters can be configured quickly and easily, making every installation successful.

Access Control

Gallagher deliver scalable and fully customizable security solutions, catering for all levels of security from fully monitored access control to cost-effective wireless and data on card options.

An integrated access control solution allows you to:

Get full control over where and when your staff, visitors and vehicles can move around your site at all times

Manage business risk through policy enforcement

Ensure the security of your physical and intellectual assets

Perimeter Security

Gallagher offers a range of perimeter security technologies.

These systems are founded on two core principles: deterrence and detection.

Targeted Monitoring and Control Onsite

The PowerFence™ Trophy FT Keypad provides a friendly user interface on-site for arming (setting) and disarming (un-setting) alarm zones. Menu-driven, it provides a display of all high voltage readings for each zone along the fence line. Each Fence Zone and zoned gate can be independently isolated from the others for maintenance and control.
